AE60

Fully Automatic Grommet Setting Machine

Fully automatic feed (grommets and washers) electric/pneumatic machine with laser pointer, washer detector mechanism that prevents the machine from setting a grommet without a washer.

Feeds grommet and washer, cuts hole and makes setting in one cycle

Extremely fast cycle time - 75 grommets per minute

Grommet sizes up to #5 Stainless Steel and #6 Brass

Electronic washer detector and slide mechanism for perfect washer placement

Positioning device for consistent spacing of settings

Safe and easy to use

Laser pointer standard

Available on a table or trolley mount

MP26

Manual Pneumatic Grommet Setting Machine

Heavy duty manually loaded pneumatic machine with unique frame design for setting at long distances from the edge of material. Suitable for a wide range of sizes including curtain eyelets, foot pedal operation.

Cuts hole and makes setting in one cycle

Unique frame design offers a wide range of setting positions

Grommet sizes up to #5 Stainless Steel and 40mm Curtain Grommets (more powerful machine for setting 66mm available on request)

Easy tooling changes to suit multiple sizes with optional tool sets

Positioning device for consistent spacing of settings

Safe and easy to use

MP25

Manual Pneumatic Grommet Setting Machine

Heavy duty manually loaded pneumatic machine. Suitable for a wide range of sizes including curtain eyelets, foot pedal operation.

Cuts hole and make setting in one cycle

Grommet sizes up to #5 Stainless Steel and 40mm Curtain Grommets (more powerful machine for setting 66mm available on request)

Easy tooling changes to suit multiple sizes with optional tool sets

Positioning device for consistent spacing of settings

Safe and easy to use

MP10-X

Portable Pneumatic Eyelet Setting Machine

Portable manually loaded pneumatic machine with hand trigger operation.

Foot pedal operation available on request

Cuts hole and make setting in one cycle

Grommet sizes up to #2 Stainless Steel

Easy tooling changes to suit multiple sizes with optional tool sets

Safe and easy to use
